

**Making Privacy Beautiful**

Privacy Glass Solutions is a world leading designer and manufacturer of high quality, innovative and highly customizable privacy and decorative glass solutions using the latest in cutting-edge technology.

With a wide range of decorative glass collections, you'll be sure to find the perfect pattern, style, and decorative glass product for your design. Each of our collections are completely customizable and offer you the ability to adjust patterns, colors, gradients, and opacities to achieve your design vision. You can even supply your own custom designs to apply directly to glass using any decorative glass technique.

PRIVACY AND DISCRETE OBSERVATION  
WHILE MAINTAINING A STYLISH AND  
CONTEMPORARY FEEL

Unique and unrivaled, Clarity allows discreet observation and privacy, while maintaining a smart and modern feel. Switchable Glass at its very BEST! It couldn't be easier. With a simple on/off switch, Clarity applies an electrical charge to the glass, changing its state from opaque to clear. Releasing the switch, returns it from clear to opaque instantaneously.

BRINGING A CONTEMPORARY LOOK  
TO TRADITIONAL BLINDS

BetweenGlassBlinds, 100% designed, engineered, and assembled in the USA, are both stylish and contemporary in appearance. They are double-glazed units, complete with fully integrated Venetian blinds, hermetically sealed between two panes of glass. Available in custom sizes as Tilt and Lift, Tilt Only, Motorized and Add-On Blinds.

BetweenGlassBlinds are the first glass encased operable blind unit in the industry to pass Insulated Windows Large Missile Level D and E Testing.

**VISION PANELS**  
THE WORLD'S LEADING GLAZED  
PRIVACY GLASS PANELS

Vistamatic Vision Panels are insulated units consisting of three sheets of glass with evenly spaced alternating lines, which are operated using one of the various VISTAMATIC operating mechanisms. When the panel is in the closed position the panel presents itself with a completely obscured viewing aspect, while in the open position the lines move across the glass, presenting viewing through the panel.

These panels are available in a wide variety of glazing, hardware, design options, and customizable sizes.
