

Vistamatic®

PRIVACY GLASS
SOLUTIONS™

Quality in innovation

Vistamatic® Vision Panels combine sleek design with secure observation, making them ideal for healthcare, education, and commercial spaces. Proudly made in the USA, they offer effortless privacy control with a simple turn of the proprietary lever, shifting three glass sheets with alternating lines between clear and private modes.

Engineered for durability, the patent-pending Impact Absorption System (IAS) ensures smooth, silent operation every time. With style, reliability, and innovation in every panel, Vistamatic® sets the standard for modern privacy solutions.

APPLICATIONS

- Healthcare

VISTA-Max

VISTA-Max offers a large viewing area with full-length alternating lines for optimal privacy control in doors and walls. Custom sizes up to 40" x 40" are available.

VISTA-SuperMax

VISTA-SuperMax is designed for large door and wall openings over 40" x 40", featuring dual vision panels with independent privacy controls in a sealed unit. Custom sizes up to 80" x 40" available.

VISTA-Max-XL

VISTA-Max-XL combines privacy vision panels above with stationary frosted glass below, eliminating the need for separate installations. Custom sizes up to 40" x 80" are available.

VISTA-Slide

VISTA-Slide, designed for large spaces, features a single privacy panel with vertical lines that move side to side. Custom sizes up to 80" x 48" are available.

VISTA-Vision

VISTA-Vision is our largest Vistamatic panel (up to 70" x 55") and the first for exterior use. Its side-to-side sliding magnet ensures smooth, quiet operation with a sleek, modern design.

VISTA-Port

VISTA-Port is the only circular Vistamatic panel (15 3/4" diameter), offering secure observation with a sleek design, enhanced visibility, and quiet, smooth operation

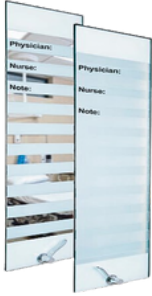

VISTA-Blackout

VISTA-Blackout blocks 97-98% of light when closed, ensuring comfort while maintaining clear visibility when open. Custom sizes up to 40" x 40" or 11 sq. ft. available.

VISTA-Art

Vista-Art privacy panels allow custom graphics on any Vistamatic project, enhancing aesthetics while preserving privacy and observation control.

VISTA-Note

VISTA-Max NOTE enhances VISTA-Max with dry-erase functionality, ideal for healthcare settings. Custom sizes up to 40" x 40" are available.
